

Alex Chen

ML / AI Engineer Intern

alex.chen@example.com | github.com | linkedin.com

// Education

B.S. Computer Science 2024 — Present (Expected 2027)

State University — GPA 3.8/4.0

Coursework: Machine Learning, Deep Learning, Linear Algebra, Distributed Systems, Algorithms.

// Experience

Undergraduate Research Assistant Jan 2025 — Present

NLP Lab, State University

- Studying transformer interpretability on small language models (1B–7B parameters).
- Implemented attention-pattern visualizations and probing classifiers for layer-wise representation analysis.
- Co-authored a workshop paper on mechanistic interpretability of arithmetic circuits.

Open Source Contributor 2025 — Present

Various ML tooling repositories

- Fixed quantization edge-case bugs in HuggingFace Transformers examples.
- Improved documentation and onboarding guides for three popular ML libraries.
- Reviewed and triaged community PRs for a PyTorch-geometric plugin.

// Selected Projects

Sentiment Analysis API

Fine-tuned DistilBERT on IMDB reviews, exported to ONNX, and served through FastAPI with Redis caching and rate limiting.

PyTorch · HuggingFace · FastAPI · Redis

Neural Style Transfer Studio

Interactive web app that applies arbitrary style transfer in the browser using a quantized ONNX model and HTML5 canvas.

ONNX · WebGL · React · TypeScript

RAG Notes Assistant

Personal knowledge assistant that indexes markdown notes with sentence-transformer embeddings and answers questions via local LLM.

LangChain · pgvector · FastAPI · llama.cpp

// Skills

Languages: Python, TypeScript, C++, SQL, Bash

ML & AI: PyTorch, TensorFlow, scikit-learn, HuggingFace, NumPy, Pandas, LangChain

Tools & Cloud: Docker, Git, AWS, GCP, Postgres, FastAPI, Weights & Biases

Currently Learning: CUDA kernels, JAX, Triton, Distributed training
